

2018 Microbiome Pilot & Feasibility Grants

“Deciphering the interactions between gut-associated glycome and microbiota during HIV infection”

[Mohamed Abdel-Mohsen, PhD](#)

Assistant Professor, Vaccine & Immunotherapy Center
Immunology, Microenvironment & Metastasis Program, The Wistar Institute

“Bacteriophage lysin supplementation of fecal microbiota transplants in the treatment of Clostridium difficile”

[Michael Abt, PhD](#)

Assistant Professor of Microbiology
Perelman School of Medicine, University of Pennsylvania

“Characterization of the microbiome and metabolome in colonic polyposis”

[Josephine Ni, MD](#)

Instructor of Medicine, Gastroenterology
Perelman School of Medicine, University of Pennsylvania

“Clostridium difficile in canine fecal samples”

[Laurel Redding, PhD](#)

Assistant Professor of Epidemiology
School of Veterinary Medicine, University of Pennsylvania

“Effects of trimethoprim-sulfamethoxazole on the nasal microbiota and host immunity of patients with granulomatosis with polyangiitis”

[Rennie Rhee MD, MSCE](#)

Assistant Professor of Rheumatology
Perelman School of Medicine, University of Pennsylvania

“Towards a microbiome-based treatment of Gaucher's Disease”

[Christoph Thaiss, PhD](#)

Assistant Professor of Microbiology
Perelman School of Medicine, University of Pennsylvania
