Scientific, Financial and Effort Commitment Overlap Statement:

***Overlap** (summarized for each individual):

Budgetary overlap occurs when duplicate or equivalent budgetary items (e.g., equipment, salary) are requested in an application but are already provided for by another source.

Example: There is budgetary overlap between the support for Aim 1 of AHA SDA 4934 and the support for Aim 3 of this application. If both are funded, PI agrees to revise her AHA Scientist Development Award budget in order to avoid budgetary overlap with the application under consideration.

Commitment overlap occurs when a person's time commitment exceeds 100 percent (i.e., 12 person months), whether or not salary support is requested in the application. While information on other support is only requested for Senior/key Personnel (excluding consultants), no individuals on the project may have commitments in excess of 100 percent or 12 person months.

Example: Potential commitment overlap exists. If this application is funded, PI will request permission to reduce effort on R01HL567089-07 from 4.80 calendar months to 2.40 calendar months

Scientific overlap occurs when: (1) substantially the same research is proposed in more than one application or is submitted to two or more different funding sources for review and funding consideration, or (2) a specific research objective and the research design for accomplishing that objective are the same or closely related in two or more applications or awards, regardless of the funding source

Example: There is scientific overlap between aim 2 of NIH R01 XX 00000-YY and aim 4 of the application under consideration. If both are funded, the budgets will be adjusted appropriately in conjunction with agency staff.

If no overlap state: "None"

I, PD/PI or other senior/key personnel, certify that the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties.
