

PARENTS AND PROVIDERS OF CHILDREN WITH AUTISM NEEDED FOR A FOCUS GROUP

WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The goal of this focus group is to learn about the barriers to research participation faced by low-income and underserved families.

WHO CAN BE A PART OF THIS RESEARCH STUDY?

Experts and stakeholders in the community who have a child with or provide services to children and adults with autism.

WHAT WILL PARTICIPANTS BE ASKED TO DO?

Focus group members are asked to meet 2-4 times throughout the year for one year to provide insights, experiences and thoughts about what the barriers to research participation are for underrepresented families in our community. We are looking to our focus group members for suggestions that we will then implement to increase community involvement in research with continued collaboration and feedback from the study team.

WHAT ARE THE BENEFITS?

You will receive compensation for your participation.

I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more about it please contact:
