

# WHAT DO YOU EAT?

## CHILDREN WITH AUTISM SPECTRUM DISORDER (7-16 YRS) NEEDED FOR ONLINE STUDY

### WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The purpose of this research study is to develop an online questionnaire about the food preferences of youth with Autism Spectrum Disorder (ASD) and how eating habits impacts daily life.

### WHO CAN BE A PART OF THIS RESEARCH STUDY?

Children ages 7-16 years old with ASD diagnosis and their parents.

### WHAT WILL PARTICIPANTS BE ASKED TO DO?

- Youth and their parents will complete an online questionnaire about food and eating habits
- Parents will complete an additional online child background and medical history questionnaire
- Families will receive compensation for their participation

### WHAT ARE THE BENEFITS?

We hope to learn more about what youth with and without ASD eat in everyday life.

### I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more about it please contact:
