

## PEOPLE WITH ARPKD ARE NEEDED FOR A RESEARCH STUDY

### WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The primary goal of this research study is to learn if an MRI can measure liver health in patients with autosomal recessive polycystic kidney disease (ARPKD). We are looking for volunteers 7 years and above.

### WHO CAN BE A PART OF THIS STUDY?

Any individual 7 years or older with ARPKD.

### WHAT WILL PARTICIPANTS BE ASKED TO DO?

Make a single 2 hour visit at CHOP to complete a:

- Physical exam and interview
- Blood draw
- MRI scan of the abdomen

### WHAT WILL PARTICIPANTS RECEIVE IN THIS STUDY?

You will receive compensation for your participation.

### I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more about it, please contact:
