

## HEALTHY VOLUNTEERS NEEDED STUDY ON KIDNEY TRANSPLANTS

### WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The primary goal of this research study is to see if an MRI and ultrasound can find complications in patients with a kidney transplant. We are looking for healthy volunteers to help us compare results from kidney transplants with healthy kidneys.

### WHO CAN BE A PART OF THIS STUDY?

Individuals 6 years and older with no history of kidney disease.

### WHAT WILL PARTICIPANTS BE ASKED TO DO?

Make a single 2 hour visit at CHOP to complete a:

- Physical exam and interview
- Blood draw
- MRI scan of the abdomen
- Ultrasound evaluations

### WHAT WILL PARTICIPANTS RECEIVE IN THIS RESEARCH STUDY?

You will receive compensation for your participation.

### I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more about it, please contact:
